

Veterinarian Prescribed, ***Dog Preferred.¹***

Kill fleas **AND** American dog ticks with
the soft, beef-flavored chew dogs love!²

NexGardTM
(afoxolaner) Chewables

From the maker of **Heartgard**[®] (ivermectin/pyrantel) Plus and **FRONTLINE**[®] *Plus*

Double Trouble

Fleas remain a problem and according to a leading veterinary expert, ticks are a growing problem in many parts of the country.³

Fleas can lead to:

- Serious discomfort
- Flea allergy dermatitis
- Tapeworms
- Other diseases

The American dog tick can lead to serious diseases, including:

- Rocky Mountain spotted fever
- Tularemia

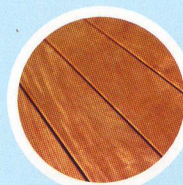

Flea Havens

SHRUBS

CARPET

WOODEN FLOORS

DECKS

FENCE LINES

URBAN WILDLIFE

Tick Zones

TALL GRASS

TRAILS

LEAF LITTER

WOODED AREAS

Flea and Tick Protection That is Veterinarian Prescribed

I like it because:

It kills existing fleas

It kills new adult fleas,
before they can lay eggs

It kills American dog ticks that can
spread Rocky Mountain spotted fever
and tularemia, and cause tick paralysis.

It stays strong **ALL** month long

It is approved by the FDA

It is easy to give²

It won't wash off

NexGardTM
(afoxolaner) Chewables

Prescribed
by veterinarians.

I like it because
it's delicious.

Loved by dogs.²

IMPORTANT SAFETY INFORMATION: For use in dogs only. The most common adverse reaction is vomiting. Other adverse reactions reported are dry/flaky skin, diarrhea, lethargy, and anorexia. The safe use of NexGard in pregnant, breeding, or lactating dogs has not been evaluated. Use with caution in dogs with a history of seizures.

What to Expect

NexGard™ (afoxolaner) is easy-to-give protection that goes to work killing fleas and American dog ticks that prey on your dog.

- *NexGard causes uncontrolled activity in the flea's central nervous system*
- *You might see fleas moving around on the surface of your dog's coat in a hyperactive state*
- *That means you're seeing NexGard working, and your flea problem dying!*

Stop Infestations

NexGard will kill fleas on your dog, before fleas can lay eggs, all month long. The adult fleas you see on your dog are usually only 5% of the flea infestation in your environment.³

To prevent an infestation:

Give NexGard to your dog monthly.

Make sure all the pets in your house, even indoor cats, are treated with a flea and tick control product. Remember, NexGard is for Dogs only.

The soft, beef-flavored NexGard chew makes it easy to protect your pet from fleas, and it kills American dog ticks, too!

IMPORTANT SAFETY INFORMATION: For use in dogs only. The most common adverse reaction is vomiting. Other adverse reactions reported are dry/flaky skin, diarrhea, lethargy, and anorexia. The safe use of NexGard in pregnant, breeding, or lactating dogs has not been evaluated. Use with caution in dogs with a history of seizures.

Satisfaction Guaranteed.

Like all the pet health products in the Merial family, including FRONTLINE® Plus and HEARTGARD® Plus (ivermectin/pyrantel), we want you to be completely satisfied with your NexGard experience. If you have any issues with NexGard, please call us directly at 1-888-637-4251 (option 3).
